Ecommerce

1. Eshop

<http://wordpress.org/extend/plugins/eshop/>

eShop is an accessible shopping cart plugin for WordPress. It is packed with various features, including basic statistics, sales data, various payment options, various methods to list products, basic stock control and various discount options. Most importantly, it can be linked with multiple merchant gateways including Authorize.net, Paypal, Payson, eProcessingNetwork, Webtopay, iDEAL and Cash/Cheque!

2. Shopp

<https://shopplugin.net/>

Shopp is an e-commerce plugin that adds a feature-rich online store to your WordPress-powered website or blog. Get your store up and running in minutes. Then, take it to the next level with the flexibility of Shopp's customization tools that allow production studios and power users to tailor every aspect of the shopping experience.

3. PayPal Payment Terminal Wordpress

<http://codecanyon.net/item/paypal-payment-terminal-wordpress/166082>

With its super easy installation, PayPal Payment Terminal Wordpress allows you to start accepting paypal payments on your wordpresstite. You can display it as a widget or on any page/post, view and sort all transactions and send out automatic notifications to your customers and yourself.

4. uPricing - Pricing Table for Wordpress

<http://codecanyon.net/item/upricing-pricing-table-for-wordpress/145538>

uPricing is a pricing table for WordPress. It is a standalone plugin that allows you to create a pricing table to list your products in. Perfect for comparing products across their features and price.

5. GetShopped

<http://getshopped.org/>

The WP e-Commerce Plugin is offered under GetShopped and is a shop owner's dream. It offers a fully integrated shopping cart application suitable for selling your digital and tangible products, services, and or fees online. It can be integrated with Google Checkout, DPS / Paystation, Paypal and offers an audio player module for selling mp3 files and digital downloads. Its functionality can be extended by using add-on plugins.

6. PHPurchase

<http://www.phpurchase.com/>

PHPurchase allows you to sell digital and physical products, collect recurring payments for subscriptions, memberships, and payment plans. You can even build a complete membership site with plugin and set up coupon codes for promotions.

7. WordpressDealpon

<http://www.warriorforum.com/warrior-special-offers-forum/429220-1500-sold-warrior-special-offer-day-wp-dealpon-automated-coupon-offers-wordpress-inside-facebook.html>

WP Dealpon is a completely automated, turn-key wordpress plugin that will let you run automatically controlled special offers right from your wordpress blog. You can run special offers for your products, resurrect older offers with a new, special discount and improve your promotional campaign for your products.

8. WP Sales Buddy

<http://wpsalesbuddy.com/>

Creates payment buttons on the fly... Controls access to content on categories, posts and pages based on subscription settings... Secures all digital downloads... Automatically sends email notices to buyers after payment... Expiring links... Teaser Content ... And Much more...

9. Quick Shop

<http://wordpress.org/extend/plugins/quick-shop/>

Quick Shop supports any WordPress that has the sidebar widgets installed. It adds a SideBar widget that shows the user what they currently have in the cart and allows them to remove the items, not to mention a TinyMCE button to easily allow you to add products to your posts/pages.

10. Affiliate Zip

<http://43wordpressutorials.net/affiliatezip>

Finally an instant commission affiliate program manager for Wordpress. If you've been waiting for an affiliate program manager designed specifically for wordpress...Your wait is over!

Contact/Email Plugin

11. Contact Form 7

<http://wordpress.org/extend/plugins/contact-form-7/>

Contact Form 7 can manage multiple contact forms, plus you can customize the form and the mail contents flexibly with simple mark up. The form supports Ajax-powered submitting, CAPTCHA, Akismet spam filtering and so on.

12. Fast Secure Contact Form

<http://wordpress.org/extend/plugins/si-contact-form/>

This plugin allows you to easily create and add contact forms on your WordPress site. The contact form will let the user send emails to a site's admin. An administration panel is present, where the webmaster can create and preview unlimited forms.

13. Scaleable Contact Form

<http://wordpress.org/extend/plugins/scaleable-contact-form/>

This is a contact form plugin which creates a very customizable contact form on your Wordpress blog. It uses Captcha to prevent spam submissions and you can configure required, non-required fields.

14. Gravity Forms

<http://www.gravityforms.com/>

Gravity Forms lets you build and publish your WordPress forms in just minutes. No drudgery, just quick and easy form-building. Select your fields, configure your options and easily embed forms on your WordPress powered site using the built-in tools.

General

15. WP Super Cache

<http://ocaoimh.ie/wp-super-cache/>

WP Super Cache is a static caching plugin for WordPress. It generates html files that are served directly by Apache without processing comparatively heavy PHP scripts. By using this plugin you will speed up your WordPress blog significantly.

16. Google Web Fonts for WordPress

<http://codecanyon.net/item/google-web-fonts-for-wordpress/242339>

Google Fonts Pro is a premium WordPress plugin that allows you to instantly access over 200 of Google's Web Fonts with power and ease. You can take full control over the font and typography used on your site in a matter of minutes!

17. WP Clicks

<http://wpclicks.com>

This is perhaps the most **clever** Wordpress plugin ever made... Watch LIVE, real-time video recordings of your vistors interacting with your Wordpress Sites!

18. Exclude Pages

<http://wordpress.org/extend/plugins/exclude-pages/>

This plugin comes in handy when you want to create pages that you don't want the general visitors on your site to view. This means that you can specify pages which will only be accessible through their direct URL and not visible on the main page.

19. Email Users

<http://wordpress.org/extend/plugins/email-users/>

A plugin for wordpress which allows you to send an email to the registered blog users. Users can send personal emails to each other. Power users can email groups of users and even notify group of users of posts.

20. Subscribe 2

<http://wordpress.org/extend/plugins/subscribe2/>

Subscribe2 provides a comprehensive subscription management and email notification system for WordPress blogs that sends email notifications to a list of subscribers when you publish new content to your blog. Email Notifications can be sent on a per-post basis or periodically in a Digest email.

21. WP Simplicity

<http://wpsimplicity.com/>

WP Simplicity is an amazing blogging tool, which allows you to leverage your time and your income. It is developed with the most advanced features to offer time-saving solutions and transform blogging experience. It eliminates the headache of creating and managing Wordpress sites.

22. WP Mobile Pro Plugin

<http://wpmobilepro.net>

The all-new mobile plugin lets you effective display your blog and marketing message for all mobile phone users. This allows for your visitors on mobile phones view an optimized page displaying your blog and customized content in easier to navigate page.

Interactive

23. WP-Polls

<http://wordpress.org/extend/plugins/wp-polls/>

WP-Polls is a Poll plugin that is extremely customizable using its in-built templates and css styles. There are tons of options for you to choose to ensure that the polls run the way you want. It encourages interaction on your site as well as allows you to collect feedback from your Wordpress site visitors.

24. Subscribe to Comments

Subscribe to Comments

<http://txfx.net/wordpress-plugins/subscribe-to-comments/>

Subscribe to Comments is a robust plugin that enables commentators to sign up for e-mail notification of subsequent comments left for the post. The plugin includes a full-featured subscription manager that your commentators can use to unsubscribe to certain posts, block all notifications, or even change their notification e-mail address!

25. Get Recent Comments

<http://wordpress.org/extend/plugins/get-recent-comments/>

This plugin displays excerpts of the most recent comments and/or trackbacks that have been posted to the articles in your blog, in your sidebar. You can let the plugin order the comments by the corresponding post, or simply order them by date. The plugin can (optionally) separate the trackbacks/pingbacks from the comments.

26. GD Star Rating

<http://www.gdstarrating.com/>

GD Star Rating plugin allows you to set up rating and review system for posts, pages and comments in your blog. You can set many options for displaying the rating stars, and add widgets into the sidebars for displaying top ratings and other statistics generated by the plugin. The plugin supports multiple languages such as English, Serbian, Spanish, Hindi, German, Italian, French, Ukrainian, Belorussian, Russian, Polish.

27. CommentLuv

<http://comluv.com/download/commentluv-wordpress/>

CommentLuv for WordPress plugin fetches the feed found at commentators' site URL while they type their comment and extracts their last blog post title with link and displays it below the comment form. When they submit their comment, the last blog post link gets added at the end of their comment for all to see! This gives your web visitors more reason to leave a comment on your site.

28. LinkWithin

<http://www.linkwithin.com/learn>

LinkWithin

LinkWithin is a blog widget that shows related stories from your blog archive under each post and links to them. This makes your older posts accessible to new or casual readers of your blog who otherwise would not encounter them. Moreover, as the widget only links to posts that are relevant to the readers of a particular post, it keeps them engaged with your blog for a longer period of time.

29. Popularity Contest

<http://wordpress.org/extend/plugins/popularity-contest/>

Popularity Contest keeps a count of your post, category and archive views, comments, trackbacks, etc. and uses them to determine which of your posts are most popular. There are numerical values assigned to each type of view and feedback; these are used to create a 'popularity score' for each post.

30. Instant Web Highlighter

<http://wordpress.org/extend/plugins/roohit-plugin/>

Automatically makes a MICRO-BOOKMARK (tinyurl that goes directly to the highlights), e-mail it to ANYONE, post it to ANY SOCIAL NETWORK, and much more

31. WP-Email

<http://wordpress.org/extend/plugins/wp-email/>

This WordPress plugin allows people to recommend or send your blog posts pages to friends via Email. This helps you get more visitors.

32. Comment Redirect

<http://wordpress.org/extend/plugins/comment-redirect/>

Redirect commenters who just made their first comment to a page of your choice. On this page, you could thank them for commenting and ask them to subscribe to your blog, like you on Facebook, whatever you want!

33. Thank Me Later

<http://wordpress.org/extend/plugins/thank-me-later/>

Thank Me Later plugin will automatically send an e-mail to your those who leave a comment at your blog. Use this plugin to say 'Thanks' to your visitors, and prompt them to further engage with your blog.

Security

34. Akismet

<http://akismet.com/>

Akismet checks your comments against the Akismet web service and filters out your comment and track-back spam for you, so you can focus on more important things.

35. Secure WordPress

<http://wordpress.org/extend/plugins/secure-wordpress/>

Secure WordPress beefs up the security of your WordPress installation by removing error information on login pages, adds index.html to plugin directories, hides the WordPress version and much more. It also blocks any bad queries that could be harmful to your WordPress website.

36. WP-SpamFreeAnti Spam

<http://www.polepositionmarketing.com/library/wp-spamfree/>

This is a powerful anti-spam plugin for WordPress that eliminates comment spam, including trackback and pingback spam. It works invisibly without CAPTCHA's, or causing any form of

inconvenience to your site visitors. The plugin includes spam-free contact form feature as well.

37. WP Security Scan

<http://wordpress.org/extend/plugins/wp-security-scan/>

WP Security Scan checks your WordPress website/blog for security vulnerabilities and suggests corrective actions to ensure your passwords, file permissions and database are secure. It ensures your WordPress admin is secure as well.

38. BulletProof Security

<http://wordpress.org/extend/plugins/bulletproof-security/>

The plugin is designed to be a fast, simple and one click security plugin that creates, copies, renames, moves or writes to the provided BulletProof Security .htaccess master files. It protects both your Root website folder and wp-admin folder with .htaccess website security protection, as well as providing additional website security protection.

39. Limit Login Attempts

<http://wordpress.org/extend/plugins/limit-login-attempts/>

The plugin limits the number of login attempts possible both through normal login as well as using auth cookies. It blocks an Internet address from making further attempts after a specified limit on retries is reached, making a brute-force attack difficult or impossible. It has been translated to multiple languages such as Bulgarian, Brazilian Portuguese, Catalan, Chinese (Traditional), Czech, Dutch, Finnish, French, German, Hungarian, Norwegian, Persian, Romanian, Russian, Spanish, Swedish, Turkish.

40. Backup Creator

<http://www.backupcreator.com>

Backup, Clone And Protect Your Wordpress Blog. The peace of mind you get from knowing that your websites and Wordpress blogs are safe and secure... Make an unlimited number of backups so you could be sure you never lost any part of your blog ever again.

List Building

41. WP Slide In

<http://www.wpslidein.com>

The WP Slide In Wordpress plugin allows you to create eye-catching opt in banners that stick to the base of your blog and virtually attract your blog visitors to subscribe to your mailing list! You can load up as many Slide Ins as you want and you can customize where they enter from.

42. WP Opt-in

<http://wordpress.org/extend/plugins/wp-opt-in/>

WP OptIn is a Wordpress plugin that allows your commenters to subscribe to your email newsletter or autoresponder simply by checking a box automatically placed in your comment forms. The plugin integrates with Aweber, ConstantContact, or MailChimp to subscribe commenters without an extra subscription step.

43. WP Squeeze Page Plugin

<http://www.wpsqueezepage.com/>

The Wordpress Squeeze Page Plugin allows you to grow your subscriber opt-in/mailling list by helping you design and build beautiful, highly converting squeeze pages easily through the Wordpress dashboard.

44. PopUp Domination

<http://www.popupdomination.com>

PopUp Domination is an easy-to-use list building Wordpress plugin that helps you create a popup window on your website to help you capture email leads. The great thing about Popup Domination is that it is designed to popup within a light box which does not risk getting blocked by popup blockers installed on the web browsers, making it a breeze to display your email capture offer to your web visitor above all your website content.

45. List Eruption

<http://www.listeruption.com>

List Eruption is a Wordpress plugin which you can install in your website and it will then help to grow your subscriber's list. It basically helps you build an incentive-based referral system so that your subscribers are rewarded for referring friends. The more friends they refer, the more incentives they get. It acts as a referral management system where you reward each of your subscribers for growing your list for you. List Eruption will automatically deliver reward content once they reach each of the reward levels that you set.

46. WPSubscribers Plugin

<http://www.wpsubscribers.com>

WPSubscribers Plugin allows you to create and customize unlimited number of web forms which include popup forms, footer bar forms, custom forms, exit popups. It works with any autoresponder service provider such as AWeber, GetResponse and Mailchimp. You can customize the position and place your web form anywhere on your site.

47. Subscribers Magnet

<http://www.maxblogpress.com/subscribersmagnet/index18.php>

This plugin lets you easily add the opt-in form anywhere in your Wordpress blog, including the sidebar, footer, within the post itself and even in the comments. Expose your web visitor to your offer/ mailing list form multiple times in a friendly, non intrusive manner. It automatically fill the visitors' name/email in the opt-in form on your blog, saving them time and getting you more sign-ups! It is compatible with AWeber, GetResponse, and all the other major autoresponders.

Search Engine Optimization

48. All In One SEO Pack

<http://wordpress.org/extend/plugins/all-in-one-seo-pack/>
